WORK EXPERIENCE

Kookmin University **Mar. 2026 – Present**
Assistant Professor *Seoul, South Korea*
Director of Media Computing Lab (MCL)
mediacomputinglab.github.io

Korea Advanced Institute of Science and Technology **Sep. 2024 – Feb.2026**
Postdoctoral Researcher *Daejeon, South Korea*

Google News Lab Fellowship **Dec. 2016 – Feb. 2017**
Fellow *Seoul, South Korea*

EDUCATION

Korea Advanced Institute of Science and Technology **Aug. 2024**
Ph.D. in Graduate School of Culture Technology *Daejeon, South Korea*
Advisor: Prof. Junyong Noh

Korea Advanced Institute of Science and Technology **Aug. 2019**
M.S. in Graduate School of Culture Technology *Daejeon, South Korea*
Advisor: Prof. Junyong Noh

Lillehammer University **Fall 2015**
Exchange Student *Lillehammer, Norway*

Pusan National University **Aug. 2017**
Bachelor of Design&Technology *Busan, South Korea*

RESEARCH INTERESTS

Human-Computer Interaction (HCI), Computer Graphics (CG), Multimedia
Keywords: Content Technology, Computational Interaction, Video Editing, Understanding User, Image Processing

PUBLICATIONS

ComVi: Context-Aware Optimized Comment Display in Video Playback

Cinematography Generation using a Reference Video
Kwanggyoon Seo, Sanghun Park, Jung Eun Yoo, Jaedong Kim, **Dawon Lee**, Junyong Noh
Pacific Graphics 2019 Poster

PATENTS

* Patent Registration (US)
Method and Apparatus for Framing Three Dimensional Target Object for Virtual Camera Layout

* Patent Application (US)
Apparatus for Generating Cross-Edited Video and Method of Operating the Apparatus

* Patent Registration (KR)
Method and Apparatus for Reproducing Camera Work
Method and Apparatus for Image Processing Based on Artificial Neural Network
Method and Apparatus for 3D Target Object Framing to Generate Virtual Camera Layout

* Patent Application (KR)
Method and Apparatus for Providing Subtitles for a Video
Method and Apparatus for Generating Highlight Video
Apparatus for Generating Cross-Edited Video and Method of Operating the Apparatus

FUNDED PROJECTS

* Project Investigator
Speech Rate- and Intelligibility-Aware Dynamic Speed-Up Optimization (2026 – 2027)
Funding: National Research Foundation of Korea (NRF)

Optimized Short-Form Video Generation Based on User-Specified Length and Subtitle Font Size (2024 – 2026)
Funding: National Research Foundation of Korea (NRF)

* Co-Investigator
[AI Star Fellowship] Development of Multimodal-Based Robot-Specialized Embodied AI for Advanced Problem Solving (2026 – 2030)
Funding: Ministry of Science and ICT (MSIT) & Institute of Information & Communications Technology Planning & Evaluation (IITP)

* Research Assistant
Development of Self-Evolving AI Creation Platform (2020 – 2022)
Funding: Korea Creative Content Agency (KOCCA)

Optimization of Real-Time Video Game Mechanics: Perspectives on Player Immersion and Agency (2020 – 2021)
Funding: National Research Foundation of Korea (NRF)

Development of Senior Game Play Support Technology and Game Service Model (2019 – 2021)
Funding: Korea Creative Content Agency (KOCCA)

Development of Camera Work Tracking Technology for Animation Production using Artificial Intelligence (2018 – 2019)
Funding: Korea Creative Content Agency (KOCCA)

TECHNOLOGY TRANSFER

AI-based Reference Video Camera Work Learning and Animation Camera Directing System

AWARD

Honorable Mention of Young Researcher Award **Jul. 10, 2025**
Korea Computer Graphics Society (KCGS)

TALKS

Korea Computer Graphics Society (KCGS) **Oct. 23, 2026**
Outstanding Young Researcher Presentation

HCI Korea **Jan. 26, 2026**
Outstanding Young Researcher Presentation

Soongsil University **Dec. 2, 2025**
Guest Lecture in an HCI Course (hosted by Prof. Jungjin Lee)

NAVER **Feb. 12, 2025**
Tech Talk (hosted by Dr. Young-Ho Kim, NAVER AI Lab)

Pusan National University **Nov. 19, 2024**
Special Lecture on Software Convergence (hosted by Prof. Chulki Kim)

KBS AX (AI Transformation) Day **Dec. 8, 2023**
